**TRADE
QUALITY
TOUGH**

Flexi-Strip discs can be used instead of Fibre Discs, Wire Wheels and Depressed Centre Wheels for:

- Deburring, blending and finishing, with one product to reduce multiple steps.
- Provide a controlled, sustained finish.
- Conform to difficult profiles as well as flat and uneven surfaces.
- Prevent undercutting and gouging.
- Cooler grinding action **8.0mm**
- When loading is an issue on **Dia** fibreglass, adhesives and soft metals
- Less vibration and quieter for more comfortable use
