EN 13743

WARNING Always wear the correct personal protective equipment when operating power tools.

TIMBER
Heavy sanding, shaping, grooving and carving.

METAL
Removing scale / rust and coarse welding marks. Removing rust, oxidation, corrosion and residue.

STAINLESS STEEL & HARD METALS
Resurfacing, blending and deburring.

TRADE QUALITY TOUGH

Twin Power Flap Discs are engineered for aggressive stock removal and improved performance on carbon steel compared to standard zirconia flap disc.
Alternating Ceramic and Zirconia flaps make these ideal for use on a wide range of materials. Less pressure required for aggressive stock removal and longer life.
